

Erfarenheter från projektet

passnet

ett projekt inom

Intelligent Energy  Europe

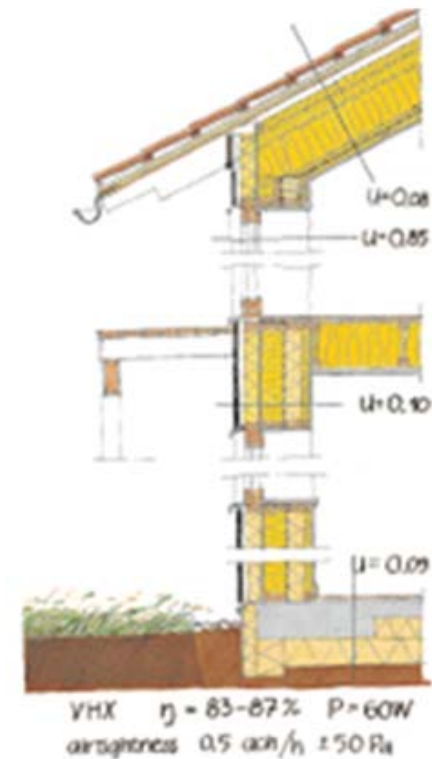

Partners i PASSNET

Mål med PASSNET

att sprida kunskap om
passivhuskonceptet och öka
andelen passivhus och
lågenergihus i Europa

- nybyggnation
- renovering

What is a Passive House?

Why Passive House?

Current situation of
Passive House in Europe

Fact sheets national
Passive House examples

European Passive House
data base

Passive House training
materials

International Passive House
Days

Establishment of a Co-operation Network of Passive House Promoters (PASS-NET)

The target of the project PASS-NET is to spread the knowledge about Passive House standard within Europe. This will rapidly increase the share of Passive House buildings within new buildings and the reconstruction of existing buildings. To reach that target, within the project a network of European expert organisations - PASS-NET - has been established. Participating project partners are coming from Austria, Belgium, Croatia, Czech Republic, Germany, Great Britain, Romania, Slovak Republic, Slovenia and Sweden.

Within the project a European wide Passive House database showing best practice buildings will be built up. To provide a good overview for stakeholders about the framework for Passive House projects, the legal situation, support programmes etc. will be described for each country. The International Passive House Days shall be extended to all participating countries by gaining the experiences in those countries, where Passive House standard has a longer tradition. To facilitate the awareness building and information about Passive House technology, a common basic training programme is being developed and translated into each national language.

Work-packages

- WP1: Management

Project Management: Quarterly Reports, Meeting Reports

- WP2: Awareness Building Public

Marketing & Awareness Campaign for the End Consumers

- WP3: Awareness Building Specialists

information and training for specialists

- WP4: Communication Public Authorities

Communication towards public authorities

passnet

Work-packages

- WP5: Data Base

European-wide data base on best practice examples in the passive house sector

- WP6: Renovation of Social Buildings

Best practice examples - guidelines for stakeholders - national seminars

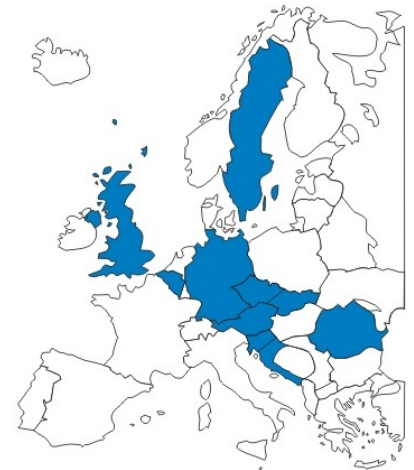

- WP7: Common Dissemination Activities

Online information systems - information and dissemination events - common presentation material

The logo for PASSNET, featuring the word "pass" in a bold, blue, lowercase sans-serif font, followed by "net" in a smaller, lighter blue, lowercase sans-serif font.

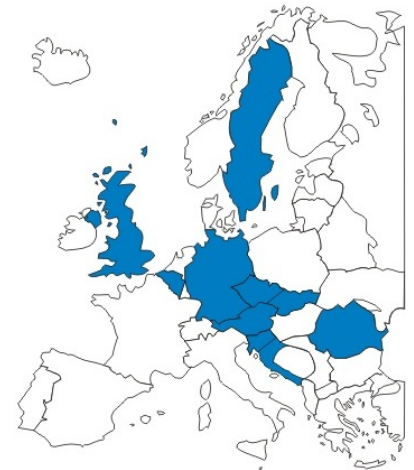

Positiva erfarenheter

- Internationellt kontaktnät
- Kunskapsutbyte
- Bra kontakt med vad som händer inom området i Europa

Positiva erfarenheter

- Inspiration
- Utmanande att tänka i nya banor
- Saker blir gjorda
- Plattform att verka ifrån

Problem

- Olika behov hos partners – "varken hackat eller malet
- Olika syn på tex. copyright
- Olika förutsättningarna → orealistiska visioner om målet
- Krångligt att ta in underkonsulter

Om vi hade fått göra det från början idag....

- Vara tydliga med avgränsningar
 - passivhuskriterier
- Vara noga med vad som förväntas administrativt
 - kvartalsrapport
- Tydliggöra kopplingarna mellan olika workpackages

Om vi hade fått göra det från början idag....

- Vara lagom skeptisk till avtal mellan projektkonsortiet och utomstående organisationer
- Lyfta frågan kring copyright för bilder och illustrationer på ett tidigt stadie för tex websida
- Vara petiga med en realistisk tidplan
 - tid för granskning av rapporter måste finnas
 - semestertraditioner och högtider

Ett nytt projekt ...?

JA!!!!

vi är redan med i ett nytt
IEE projekt NorthPass
