

Private Sector Finance for NDC Implementation in Sub-Saharan Africa

PRINDCISSA

**A project by the Stockholm Environment Institute,
Perspectives and SouthSouthNorth**

Research objectives

*To assess how the **private sector** can best be **incentivised to fund** mitigation and adaptation activities as part of **NDC** implementation in Sub-Saharan Africa.*

*Identify possible **synergies** between mitigation and adaptation activities, and explore the role the private sector can have in **supporting activities** with mitigation and adaptation benefits*

Provide insights from real experiences in SSA and explore how private sector can contribute to NDC implementation

Research Approach

Work package 1 – Private mitigation climate finance: a bottom-up perspective from Sub-Saharan Africa: Identifies and assesses practical experience with mobilising private climate finance in Sub-Saharan Africa through market mechanisms and climate finance mechanisms.

Work package 2 – Private adaptation climate finance: a bottom-up perspective from Sub-Saharan Africa: Identifies and assesses public sector engagement and private actors' motivations in mobilising private finance for adaptation

Work package 3 - Synthesis and dialogue: identify the most promising opportunities for mobilising stronger private climate finance for NDC implementation through synthesis of WP1 and WP2 and dialogue through two workshop in Sub-Saharan Africa in 2018.

Deliverables

We are here

WP1 Mitigation	Report on key activities and patterns (O1)	Policy brief based on O1 (O2)	Short report on assessment framework & identifying 3 CS (O3)	Report on lessons learned & capacity needs - including 3 CS mitigation (O4)	Policy brief based on O4 (O5)	Journal article on PS participation in CF mechanisms & ways to enhance it in mitigation (O6)
WP2 Adaptation	Report on key activities and patterns (O7)	Policy brief based on O7 (O8)	Short report on assessment framework & identifying 3 CS (O9)	Report on lessons learned & capacity needs - including 3 CS adaptation (O10)	Policy brief based on O10 (O11)	Journal article on PS participation in CF mechanisms & ways to enhance it in adaptation (O12)
WP3 Synthesis & Dialogue		Policy brief on new opportunities for the PS in NDC implementation (O13)	2 Workshops 2 Side events (O14, O15)	Final Synthesis Report with recommendations for policy makers (national and international) and PS (O15)	Policy brief on implications of research (O16)	Journal article on new opportunities for PS participation in climate finance (O17)
