## Guide to completing tasks and transactions

<b>Introduction</b>	<p>This guide describes how authorised representatives complete tasks (e.g. transactions) by approving them in the "Task list".</p> <p>A task must be approved by a representative other than the one who initiated the task. A task can only be approved by a representative with the role <b>Initiator &amp; Approver</b> or <b>Approver</b>. These representatives also have the possibility to reject the task.</p> <p>The initiator of a task can always reject his own task.</p>
<b>Step by step</b>	<p>Execute the following steps from the Union Registry home page:</p> <p><a href="https://unionregistry.ec.europa.eu/euregistry/SE/index.xhtml">https://unionregistry.ec.europa.eu/euregistry/SE/index.xhtml</a></p>
