

RE GREENBYTE

Company timeline

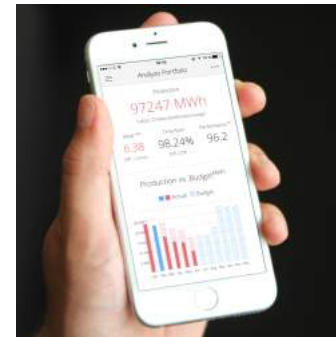

Loan 1.5 mkr from Energimyndigheten
Amortized March 2017

Our products transform data into actionable insight

Our products:

- Collect data from wind turbines, solar plants, substations, power forecasts, grid meters etc in real-time and store data in perpetuity
- Are business critical in daily operations of our customers
- Run on highly scalable cloud platform technology

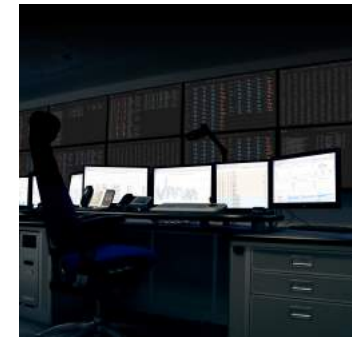

On phones

On desktop

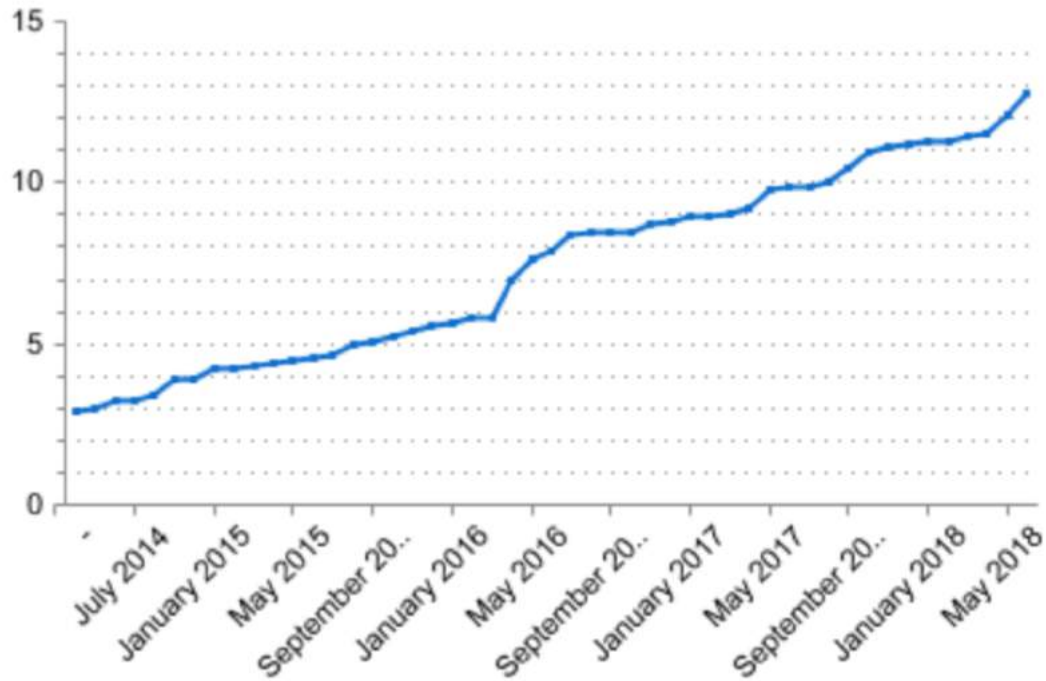

In control rooms

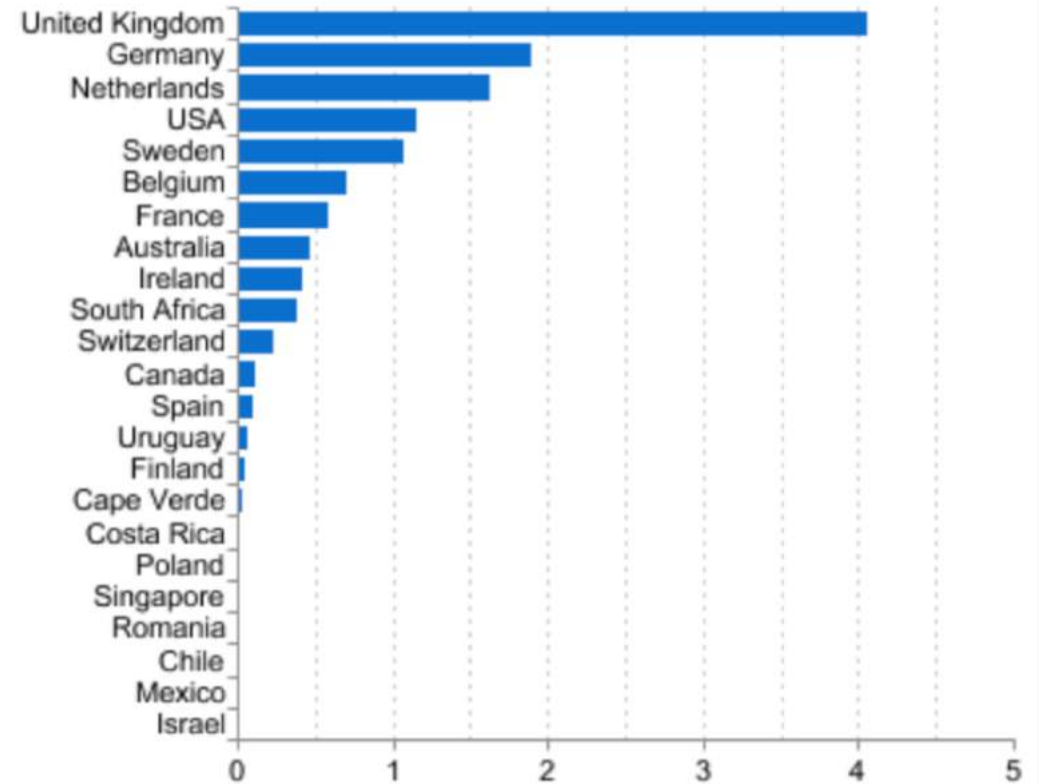

GWs are how we measure success today

GW evolution per month

GW per country

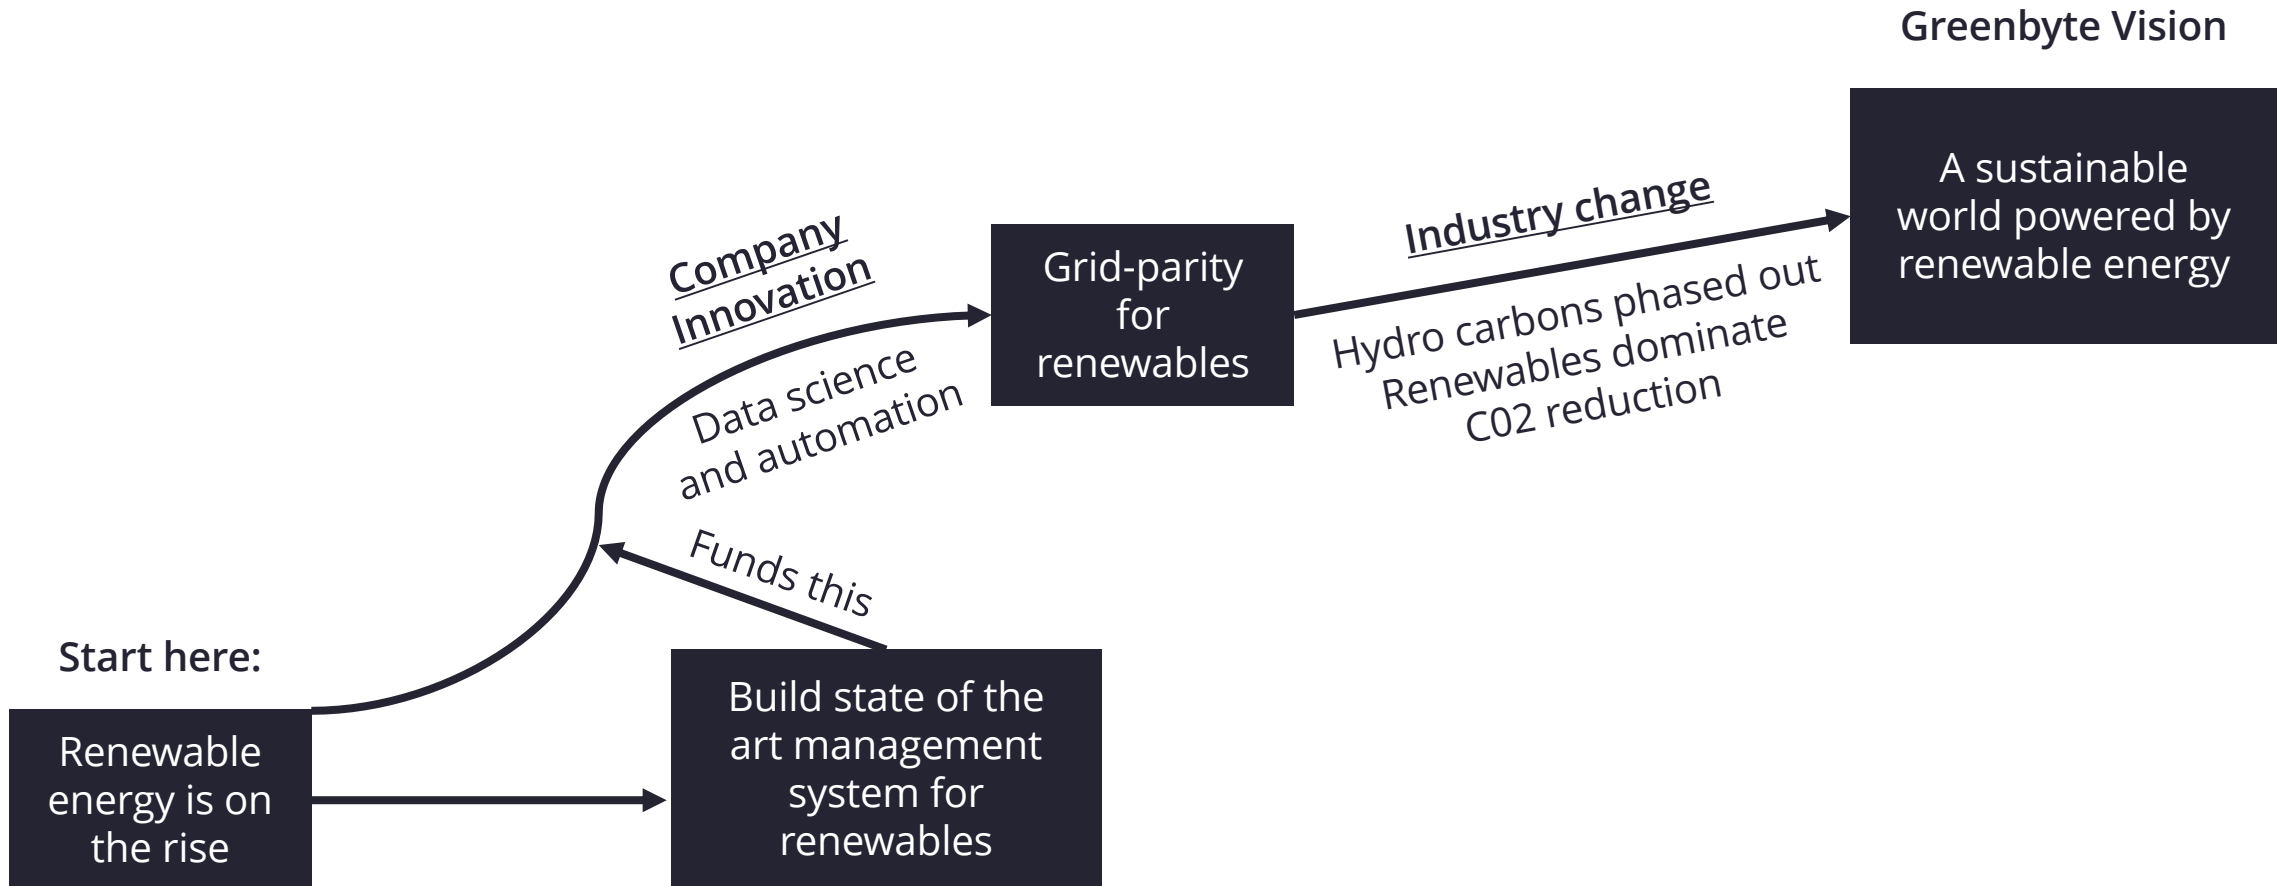

Some of the most renowned companies in renewable energy rely on Greenbyte Energy Cloud daily.

“I would recommend Greenbyte Energy Cloud to anyone who wants to be a front runner in data management and is working in wind and solar.”

BASTIAAN VAN WIJK
ASSET MANAGER, YARD ENERGY

How we look at the world and next steps
